and 21,204 men; eight aero squadrons or one new squadron to each two new infantry divisions; eight balloon companies, ten field hospitals, ten ambulance companies; twenty-two field bakeries; six telephone battalions; sixteen pack companies; six ammunition trains; and six supply trains.

In preparation for the enormous task of training this great army, the existing regular establishment and the national guard is being brought to full war strength. The regulars when all five additional increments provided for in the national defense act have been added, will total 11,233 officers and 293,000 men of all arms. Since April 1, nearly 50,000 recruits have been obtained, bring the army up to nearly 180,000. Upon the president's approval of the army bill, the first increment will be added to the regulars. Details of officers and designations of new units already have been arranged. As soon as possible thereafter the remaining increments will be created, existing regiments being divided and expanded to form the new units.

ADVANCE REGULAR OFFICERS.

Already orders summoning officers for the regular service for examination for advance in grade have been prepared. Fifteen lieutenant colonels of cavalry will become colonels; twenty-seven cavalry majors will become lieutenant colonels; sixty-three captains will become majors and all lieutenants will become captains.

All field artillery lieutenant colonels and the first five majors will be examined to become colonels. The remaining majors and one captain will go up to lieutenant colonels, seventy captains will be examined for majors and all lieutenants will become captains.

In the coast artillery thirteen lieutenant colonels must be promoted to colonels; twenty-two majors become lieutenant colonels, all captains will become majors, and the first 230 lieutenants will be examined for captains. All second lieutenants become first lieutenants.

In the infantry the first fifty lieutenant colonels will be examined to become colonels. Majors down to number 89 go up for lieutenant colonel; the first 200 captains are slated for majors and all present first lieutenants, and second lieutenants including the first 153, will become captains.

5,461 VACANCIES CREATED.

The result of the expansion will be to create 5,461 vacancies in the grades of first and second lieutenants in the army. More than a thousand youths in civil life already have applied for examination for second lieutenant and 4,000 will be selected from the officers' training camps.

To provide general officers to command the eighteen divisional training camps, that number of army colonels may be examined. As there exists already one vacancy in the grade of brigadier general, nineteen general officers must be appointed in the near future, and the army bill provides that the president may select these men from any source. A uniform grade of major general, senior and junior rank, has been proposed, doing away with the grade of brigadier general. In any event the present general officers of wide experience probably will be selected so far as possible to command the divisional camps.

The full strength of the national guard units now existing will be 9,847 officers and 329,954 men, giving a total regular and national guard force to be whipped into shape before the new army is called of 21,080 officers and 622,954 men. New units must be raised, however, to fill out technical organizations, and probably the total of this force will exceed 700,000 active troops, backed by about 250,000 more on the regimental recruit battalions.

From this source will be formed eighteen divisions corresponding to

American Opera Quartet Coming to the Chautauqua

THIS is the fourth season the American Opera Quartet has sung on Lincoln circuits. Mr. Hamilton, the tenor, created a sensation a few years ago when a wealthy southern lady discovered him and sent him to Chicago to study music. Mr. Joel Mossberg, the big Swedish baritone, does lyceum concert work in the winter as a soloist. His voice is as big and powerful as he is, and he is a six footer. He sings Italian, French, Swedish and English. Chicago music critics say he is a great artist, and the people in the small towns request his return over and over again.

When these artists sang on the Indiana circuit of the Lincoln Chautauquas they found it very hard to give all their evening program because of the many requests for repetitions of the afternoon numbers. Sometimes they were compelled to give nearly the entire afternoon program over again at night, using the regular evening numbers as encores.

The last half of their evening program is "The Bohemian Girl," which includes "Then You'll Remember Me" and "I Dreamt I Dwelt In Marble Halls."

Miss Lois Johnston, soprano, and Miss Mildred Smith, contralto, are real artists, giving fine balance to this quartet. They come the last day.

H. J. SPANELL FOUND GUILTY

**Texas Must Serve Five Years
In Penitentiary, Verdict
of Jury.**

Coleman, Texas, May 7.—A verdict of guilty of murder was returned by the jury in the case of Henry J. Spanell, charged with the killing of Lieut. Col. M. C. Butler, and punishment was fixed at five years' imprisonment.

Spanell was deeply affected by the verdict. His counsel announced a motion for a new trial would be filed immediately and if it were not granted an appeal would be taken. The plea for reversal, they said, would be based specifically upon the refusal of the court to sustain the defense's plea of "former acquittal."

Wanted To Be a General.

The Hopkinsville young men who were examined in Louisville last week have many amusing stories to tell about the examinations and how they felt while the doctors were testing them. All say that their heart-beat was high on account of excitement. They say that the most amusing incident of the whole trip was when one young man from the eastern part of the state was asked what office he was applying for and answered, "General, sir!"

the organization of the first new army. From it, also, early in September will be drawn some 200,000 officers and non-commissioned officers who will constitute the framework on which the new army will be shaped.

They will, with the ten thousand officers to be selected from the training camps, be the instructors of the army, and on their efficiency rests the whole military fabric that is to be built up.

In general the plan will be to provide a regular army officer to command each new regiment with an adequate number of regular or national guard officers of experience to carry on efficiently the administrative duties and to supervise instruction.

During the interval between registration and the calling out of the new army, the regular and national guard divisions will be at work preparing the mobilization camps and their own training. To them also is to fall the duty of protecting public and private property. The commander of each training district probably will direct this work under the orders of the commander of the military department in which his camp is located.

A CHANCE TO JOIN THE OFFICERS' RESERVE CORPS.

Maj. John L. Hughes, of the U. S. A., has taken up headquarters at Hotel Madison, Madisonville, Ky., for a few days to receive and examine applicants for the officers' training camp, to be held at Ft. Benjamin Harrison, Indianapolis, Ind., beginning May 14, 1917. Maj. Hughes has full authority from the War Department to examine, pass and accept applicants.

The only enlistment required is for a three months period in the officers' training camp and in the officers' reserve corps.

Those applicants who are found, after training, to be suitable for commissions, in the officers' reserve corps, will be commissioned. During the period of training applicants will be paid \$100 a month, under act of Congress now in process of being passed and if commissioned will receive regular army pay while in federal service.

Maj. Hughes can be communicated with in person or by phone at all hours of the day or night, at his headquarters, and all applications made to him will receive due consideration.

The war department has brought to the people's door the opportunity for all men with suitable educational qualifications to enter the army from civil life, without previous military examination, as commissioned officers, and it is hoped the public will take proper interest in it and suitable persons may get into communication with Maj. Hughes at the earliest possible moment.

HOPKINSVILLE BOY ENLISTS.

The readers of this paper will be pleased to learn that there is at least one cure for that disease that science has been able to cure in all its stages, and that is Catarrh. HALL'S CATARRH CURE is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. HALL'S CATARRH CURE is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work.
